MISSION

To develop and deliver International Standards in Recruitment & Career Solutions across India.

RECRUITMENT PROCESS

PLANNING:

Our work plan strategy is based on the possible challenges, the mechanism to counter such challenges, the ongoing trends in the market, competency levels available, parameters required for the position etc. With the blueprint present we initiate our work on the R&D.

RESEARCH AND DEVELOPMENT:

In our R&D phase we put our efforts to search for the right competency levels on the parameters of skill, experience, stability and performance. By ranking the candidatures on these parameters we select and share the quality candidatures with our clients.

PRELIMINARY SCREENING & INTERVIEW EVALUATION:

With the selection of candidatures we are engaged in preliminary screening where we assess them on Key Result Areas (KRA's), Compensation Package, Job Title, Job Location and other details. Our team of consultants personally conducts their interviews to assess the candidate competency.

CLIENT INTERVIEW, FORMAL REFERENCE CHECK & CLOSURE:

As per our Evaluation if Candidate is Above 60 Marks then We consider them For Client Interview where the client can directly assess the capability and potential of the candidate. With the positive feedback from the client, we make a formal reference check about the candidate regarding his work ethics, performance, behaviour and other basic. The last phase of the process is the negotiation and the handholding phase where we negotiate for the salary package, joining date and offer letter. Also, we continue to maintain our relationship with both our client and selected candidate to ensure smooth integration of the candidate in the organization.
