

## Our clients

Over the years, we've been associated with a variety of architects, interior designers, interior decorators, builders, developers, individual clients, landscape designers, modular kitchen developers, and retail shop keepers.

Here is a glimpse of some of them :

I had a very good experience in purchasing tiles from your showroom at Manpada. The staff were very helpful and the rates are competitive. I shall surely recommend your shop to my friends so that they too can experience a good services at competitive price.

My friend wanted his flat to be renovated, beginning with complete flooring replacement. He had seen so many shops and was about to shelve his work due to cost involved in vitrified tiles replacement. He approached me and I immediately took him along with me to Viva Tiles Showroom. He was impressed with the size & display of the showroom & variety of tiles available there. Mrs Urmila, being a whole seller, offered him tiles with such reasonable that he purchased tiles for his entire flat's flooring and toilet works. I have also used granite and tiles from her showroom and can vouch for her excellent rates and service.
