SOURCING & MANUFACTURING

ABOUT US

M/s. MVFASTENERS PRIVATE LIMITED (Formerly Known As MV Designs & Fasteners) has been constituted in August 2012 as a proprietorship concern by Mr.R.Kumaraswamy to carry out the Trading of Industrial Items. Any manufacturing unit requiring items such as hardware components, MS parts, plastic parts etc for carrying on a manufacturing activity, may place an order with M/s. MVD FASTENERS PRIVATE LIMITED , based on which the Unit arranges for Manufacturing,sourcing, storing & supplying of the items as a package to the Customer and also we have the Manufacturing capacity of 1 tone per day The Promoter would be carrying out Trading at the premises located at #308, jigani bommasandra link road, jigani, anekal taluk,Bengaluru -560106

Most factories only produce single kind of products, and it is quite inconvenient for purchasers with different needs at the same time. We could offer customers a wide range of products under the fastener category. Purchasers can save much time and money through our service. ISO 9001:2015 certified, We offer our customers a comprehensive range of products that match the strict quality requirements in the international market. Our company has earned the distinct reputation as being a quality-oriented exporter. High and Good quality are always what we concerned.

We never stop developing new ideas for better products with different needs from our customers.

Trust is the key point for good business so we take every request from our customers as an important issue. We keep promise to our customer in order to build up a long-term cooperation.

THE PROMOTER

Mr. R. Kumaraswamy, came out as a Diploma Holder in Electronics, in year 1998, from TG Gopalshetty Polytechnic College, Adoni. From year 1998, upto year 2012, he has served M/s. APW President Systems Ltd in Attibele Industrial Area, Anekal taluk. He has held various positions in the Purchases section of the Company, the last held capacity being Asst. Manager (Purchases).

Backed by an experience of one and a half decades, the Promoter has set up his own Unit M/s. MV Designs & Fasteners to source and supply the customer requirements.

Self Clinching Fasteners

The MVSelf Clinch are widely used as a fastening products when manufacturing thin sheet metal intensive products. These fasteners provide strong threads in sheet metals, require no "tapping" and provide high push-out and torque resistance.

Fastening Everything

SOURCING & MANUFACTURING

WASHERS

Range: Flat, Shakeproof, Lock
Materials: Steel, Stainless Steel, Brass, Nylon, Fibre

SOCKET PRODUCTS

Range: Cap, Button, Set, Countersunk, Shoulder, Keys
Threads: Metric, Unified
Materials: High-tensile Steel, Stainless Steel

THREAD FORMING

Heads: Pan, Countersunk, Flange Hexagon
Drives: Pozidriv®, Cross Recess Slotted, T-Drive (6-Spline)
Materials: Steel, Stainless Steel Aluminium, Brass

PINS

Range: Roll, Dowel, Split Groove Taper
Materials: Steel, Stainless Steel

RIVETS

Range: Blind, Semi-Tubular, Solid, Push
Materials: Aluminium, Steel, Stainless Steel, Nylon, Copper, Nylon, Nickel-Copper

BOLTS & STUDDING

Range: Sets Bolts Studding Carriage
Materials: Steel High Tensile Steel Stainless Steel

CIRCLIPS

Range: Internal, External,
Heavy duty, Many more
Sizes: Metric, Inch
Materials: Steel, Stainless Steel

Heads

STAINLESS STEEL FASTENERS

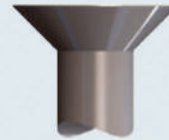

A massive range of standard and specialist fasteners is available in different grades of stainless steel, including: A2 A4 High- Strength Stainless

TURNED PARTS

Our factories in Europe and Asia produce bar turned and cold formed fasteners from 0.6mm diameter up to 12mm diameter, specifically to customer drawing.

Countersunk / Flat

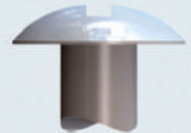

Raised Countersunk / Oval

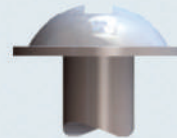

Round

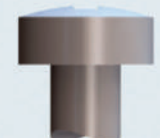

Mushroom / Truss

Flange / Round Washer Head

Fillister

Pan

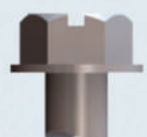

Hex

Hex Washer Head

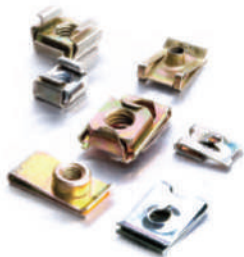

Slotted Hex Washer Head

SCREW WASHER ASSEMBLIES

Range: Single Washer, Double Washer
Threads: Metric, Unified
Heads: Pan, Countersunk Flange, Hexagon
Drives: Pozidriv®, Cross Recess, Slotted, T-Drive
Materials: Steel, Stainless Steel, Brass

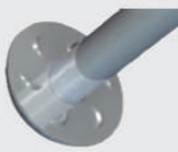

SPRING STEEL FASTENERS

Range: Cage nuts, U nuts, J nuts,
Torque nuts, Many more
Threads: Metric, Unified
Materials: Steel

Serrations

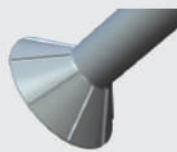

Clockwise

Half Moon Nibs

Counter Clockwise

SOURCING & MANUFACTURING

PLASTIC FASTENERS

A massive range of standard and specialist fasteners is available in different types of plastic.

PRESSINGS

Our global network of approved sub-contractors allow us to offer practically any size of turned, cold-formed, pressed or molded component.

RIVET BUSHES

Range: Round, Hexagon, Mini, Tank, Stand-Offs

Threads: Metric, Unified

Materials: Steel, Stainless Steel, Aluminum, Brass

SCREWS FOR PLASTIC

Range: Standard Performance, High Performance

Heads: Pan, Countersunk Flange, Hexagon

Drives: Pozidriv®, Cross Recess, Slotted, T-Drive (6-Spline)

Materials: Steel, Stainless Steel

INSERTS FOR PLASTIC

Range: Cold, Heat, Ultrasonic

Application: Thermoplastic, Thermoset

Threads: Metric, Unified

Materials: Brass

MICRO DIAMETER

Range: Machine Screws, Thread forming Screws, Nuts, Washers

Sizes: M0.6 to M2.5

Materials: Steel, Stainless Steel

SELF CLINCH FASTENERS

Range: Studs, Nuts, Stand-Offs, Panel Fasteners
Threads: Metric, Unified
Materials: Steel, Stainless Steel, Aluminum

MACHINE SCREWS

Threads: Metric Unified
Heads: Pan Countersunk Flange Hexagon
Drives: Pozidriv® Cross Recess Slotted T-Drive (6-Spline) Many more
Materials: Steel Stainless Steel Brass Nylon

BLIND RIVET NUTS

Range: Flange Head, Countersunk, Reduced Head, Sealed
Threads: Metric, Unified
Materials: Steel, Stainless Steel, Aluminum

SECURITY FASTENERS

Range: Machine screws, Bolts, Nuts Self-Tapping Screws,
Heads: Pan, Button, Countersunk, Hexagon
Drives: Re-usable, Permanent
Materials: Steel, Stainless Steel

NUTS

Range: Full Lock Binx® Self-Locking Nylon insert Castle Many more
Threads: Metric Unified
Materials: Steel Stainless Steel Brass Nylon

SELF TAPPERS

Range: Pointed Blunt head-Cutting
Heads: Pan Countersunk Flange Hexagon
Drives: Pozidriv® Cross Recess Slotted T-Drive (6-Spline)
Materials: Steel Stainless Steel
