you dream it. we build it ...

A Venture of SWAMA INFRA PROJECTS PVT LTD

# ABOUT US

BUILDHEIGHTS.COM is one of the leading Engineering & Construction Contracting Company and is based at Bangalore focusing on Residential, commercial & Institutional Projects. BUILD HEIGHTS.COM is specialized in providing TURNKEY SOLUTIONS from PLANNING TO FINISHING of all types of construction projects and is engaged well experienced team of Architects, Project managers, Civil Engineers, Supervisors, Office staff and other Construction workers to execute the work with utmost care and accuracy as per the client's requirements and their satisfaction. BUILD HEIGHTS has a long and successful record for creating imaginative, practical and durable Construction solutions. BUILD HEIGHTS assures World Class experience relating to the services it offers.

## **VISION:**

To be the most preferred and trusted Construction Company for imaginative, practical and durable Construction solutions across Residential, commercial & Institutional Project types.

## **MISSION:**

To achieve customers delight and expectations by taking a consultative and collaborative approach, considering the client's vision and functional requirements.

# WHAT WE DO

In today's lifestyle and busy schedule building a home is a stressful and expensive as one needs to interact with many professionals and agencies individually. With the aim of making entire process of building a home more simplified and cost effective we have started our brand BUILDHEIGHTS.COM to provide turnkey solutions.

Be it RESIDENTIAL HOUSES, VILLA'S or STAND ALONE COMMERCIAL COMPLEXES we provide turnkey services from PLANNING TO FINISHING which includes ARCHITECTURAL FLOOR PLANS, 3D VIEWS, STRUCTURAL DESIGNING, ELECTRICAL DRAWINGS, PLUMBING DRAWINGS, CONSTRUCTION and INTERIOR DESIGN under one roof. In addition we also help our clients in obtaining PLAN SANCTIONS and OTHER PERMITIONS & APPROVALS from Govt. Agencies.

# HOW WE DO

## **GETTING STARTED:**

On confirmation of business, the business development and Design team, will listen to the clients to understand their status, Lifestyle, requirements and the area to be designed.

## **FINALIZING THE DESIGN:**

After listening to the client's suggestions the team will prepare and present the final drawings and designs, upon the client's satisfaction finalize the drawings.

## **WORK IN PROGRESS:**

On signing the contract the operations team will carry out the construction work under the supervision of Architects and Engineers. The client will be asked to involve on every stage for the changes if needed and to certify the work and give the feed back.

## **CONCEPT & DESIGN:**

The team will then create the concept and design and present the same to the clients for suggestions.

## **COSTING & CONTRACTING:**

On finalizing the drawings, specifications & materials to be used the team will prepare the Estimate based on inputs from client and sign the construction agreement to proceed on execution of the project.

## **HANDING OVER:**

Now the DREAM of the client is in REALITY, the client is very happy and exited to share the happiness to their near and dear ones and we will hand over the building to the client on final bill settlement.
