logicedu Commerce - A Learning App is a platform created by

Prof. (Dr.) Deepak Jaggi and developed by Classplus, Founded on 1st March 2021.

It is a platform & a way for the teachers to spread education & students to learn different educational concepts on a cost-efficient basis through the App & understand the concepts better through intellectual sessions.

This App mainly focuses on Commerce Stream. Being Cloud Native, this App has the potential of replacing the entire coaching classes industry by having a professional Learning Management System (LMS) in place.

The App is available to the students community on a Subscription model in which they can watch quality video lectures an unlimited number of times every month. The App can be downloaded on both operating systems i.e. Android as well as IOS.

The greatest innovation that Dr. Deepak Jaggi brought with the experiences of his long work in the commerce stream is the logicedu commerce application which is an institute in itself where you can study all courses related to commerce.

logicedu also provides CMA (USA) & CPA (USA) courses certified by IMA (Institute of Management Accountants) franchised by MyLogic Videos being the platinum partner of IMA (USA). You can easily complete these highly specialized certified courses that can give you a good job packages and widespread opportunity
