

**OYSTER EXIM** was established in 2020, in the Ahmedabad Gujarat. The company is efficiently managed by the Partners, **Mr Martin Christian Mr Kenneth Christian**. Under able both guidance, we have established fruitful and long term relationships with the customers. Therefore, we are known as the chief Exporter of the Fresh Seasonable Fruits, Turmeric Finger, Indian Spices, Pulses, Indian Rice,

Ginger is most commonly known for its effectiveness as a digestive aid. The primary known constituents of Ginger Root include gingerols, zingibain, bisabolene, oleoresins, starch, essential oil (zingiberene, zingiberole, camphene, cineol, and borneol), mucilage, and protein.

In the world market Indian ginger is popularly known as 'cochin ginger' (NUGC) and 'Calicut ginger' (NUGK). Ginger is available in a variety of forms like oils, oleoresins, and fresh ginger in brine, pickles, candies and syrups. Ginger that is Garbled/ungarbled; bleached/unbleached has a predominant position in production and export. We also market the bleached and powdered forms of ginger. India produces nearly 20,000 MT of Ginger every year.

We are known as the prominent Exporter of the better quality **Turmeric Finger** in India. The Turmeric Finger is used for providing the better colour to the particular dish and also in the preparation of various medicine and cosmetics, due to its medicinal value. Our Turmeric Finger is available at reasonable prices.

India is well known for its tradition and so is its tradition of cooking with earthenware. It's an age-old concept that has deserted with time. This golden concept was then washed over by modernization as we moved to the stainless steel or bone china or melamine era.

One can get a rare antique of an earthen pot in few homes these days, the reason being its natural benefits. Earthenware has tremendous health benefits. Cooking food with it embarks nutritional value of the clay to the food. The porous material of **clay** helps water seep through it, letting you enjoy the mildly cool water. Not only this, the mineral composition and porous nature of clay pots and other clay products accentuate the flavour of the food we eat.

Welcome to EVERGREEN ECO CONCEPTS - the Indian company with the motive to produce and distribute the eco-friendly Areca Leaf products worldwide, for a better tomorrow

Plastic and Glass Bottles contain toxic elements like Lead and Cadmium. After drinking water or other beverages in them, the toxic elements get collected inside your body and may cause harmful effects in the long run.

Our **Bamboo Water Bottles** doesn't contain any toxic element. 100% Healthy for you, your Family and the Environment.

#### **MAINTENANCE:**

- Wash the interior of the water bottle for just 2 minutes with a brush once every week.
- Keep the Bottle Dry when not in Use & don't keep water in the bottle for more than 36 hours.
- Don't screw the cap of the bottle more than its limit.

And most importantly each Bamboo Water Bottle is unique and different in some way from the other. So when you buy a Bamboo Water Bottle you can be sure that nobody else in the world owns one exactly like yours.

Easy to cook, Waxy texture, mild flavour, free from discoloration after cooking. Due to high dry matter, low reducing sugars and low phenols, the variety is highly suitable for making chips and French fries.

We export different variety of **potatoes**. Kufri-jyoti, Badshah potato, lauvkar potato (Adina x sarkov) pukhraj potato, Chipsona I potato, Chandramukhi potato, Lady Rosetta (LT), Atlantic potato, Kennebec potato, Hermes potato,

India is the second largest **onion** growing country in the world. Indian onions are famous for their pungency and are available round the year. Indian onions has two crop cycles, first harvesting starts in November to January and the second harvesting from January to May.
