# WHAT IS DESIGN

“ Design is to express your self in different different creative ways... ”

- **Purpose** : Create attractive designs for everyone to grow their business. Our creativity will work to present your business with attractive design.
- **Goals** : In the future, we want to create more branches of our HP Creation Editing Studio, and our focus is on designing HP Creation Editing Studio in the head.

# All Products

# Logo Design

- **Logo** : First of all for logo design we learn more about the client from their company. Then start working on that logo. The Miningfull create the logo as started by the client. Creating a logo takes four to five days. We create two to three options for this logo.

# Product Design

- **Product Design** : Product design increases the value of a product. Considering all these things, we make the best design for that product.

" Jo Sahi hai,

DATE : 01.04.2020

After choosing the name of my business I had some specific notions about how I wanted my logo to look, what colors, what font- all that stuff. The hardest part was finding a graphic designer who would be a 'good fit' personality wise; someone who would listen to all my ideas and then gently and kindly reign me in when my ideas have become a little too grandiose!

Luckily, I found **Mr. Hitesh Patil's** contact and we were off and running. The constant flow of ideas and information has been fantastic and I have loved the whole process. I have actually learned new things about design, pantone colors, font styles and other assorted goodies; thanks to Mr. Hitesh Patil answering my many questions

We would definitely recommend **Mr. Hitesh Patil** services to anyone contemplating a logo design and Graphics Work.

Thanking You,  
**Team Chembur Directory.**
