WHAT IS FIRE RISK AUDIT?

A Fire Risk Audit is an organized and methodical look at premises, the activities carried on there and the likelihood that a fire could start and caused harm to the occupants in and around the premises.

The experience & acquired qualifications gives me a status of 'Competent Person' as described in various articles of Maharashtra Fire Prevention and Life Safety Measures Act, 2006 and Rule, 2009.

The Audit undertaking in accordance with general risk assessment principles in order to identify hazards that can contribute to fire and injury to occupants in or resorting to the premises.

SERVICES OFFERED BY US:

1.Fire Risk Audit:

Conducting Fire Risk Audit is mandatory as per the guidelines prescribed in National Building Code and various other legislation which are stipulated by Government. We undertake Fire Risk Audit in accordance with general risk assessment principles in order to identify hazards that can contribute to fire and injury to occupants in the building. It is an organized and methodical look at premises, the activities carried in there and the likelihood that a fire can start and cause harm to the occupants in and around the premises.

2.Fire Safety Training:

The Fire Safety Training is given to raise awareness of fire hazards in the premises and how to act safely in the event of an emergency fire situation, including selecting and using the correct fire extinguisher.

3.Providing Fire extinguisher:

It is an active fire protection device used to extinguish or control small fires, often in emergency situations. We provide all types of Fire extinguishers manufactured as per IS standards that too in a very comparative rates.

4.Annual Maintenance Contract (AMC) of Firefighting systems:

The broad objective of the maintenance services for fixed fire fighting systems and their mechanical equipment would be ensure that the systems of the premises are always kept functional and maintained to achieve optimum life and safety. To ensure safety of the premises and personnel, required measures are taken and consistently maintained for efficient operations.

5.Providing "Form B" –

Form B required to be submitted by the occupier / Society twice in a year by the Licence agency under the provision of Sub section (3) of section 3 of the Maharashtra fire prevention and Life safety Measures Act 2006 and Maharashtra Fire Prevention and Life Safety Measures Rule 2009.
