Cross Shaft Precision Press
(Single Crank - SN1)

Straight Sided Double Crank /
Crank Link Press (SNS2 / SLS2)

Cross Shaft Precision Press
(Double Crank SN2)

Heavy / Progressive Stamping Link
Motion Press (SM1 / SM2)

- ❖ High Torque Wet Clutch & Brake
- ❖ Hydraulic Overload Protector
- ❖ Long 6 point guiding
- ❖ High Precision Transmission Gear for Reduced Vibrations
- ❖ Precision Ground Crank Shaft
- ❖ Motorized Slide Adjustment
- ❖ HMI for Machine Status / Fault display
- ❖ Digital Crank Angle / SPM display
- ❖ Electronic Cam Limit Switch
- ❖ Dual Safety Valve
- ❖ Die Height Indicator
- ❖ PLC Control

Straight Sided Single Crank /
Crank Link Press (SNS1 / SLS1)

Straight Sided Crank /
Crank Link / Eccentric Gear /
Eccentric Gear Link Press
(SAG / SLG / SE / SEL)

Straight Sided Solid
Frame Crank Servo /
Eccentric Gear Servo Press
(SD/SDG/SDE)

- Tandem Press Line
- Triple Action Press
- Deep Draw Press
- Die Spotting Press

Automation

- Mechanical / Servo Feeders
- Press Feeding Line
- Inter Press / Pick-N-Place Automation
- Intra-Press Transfer Automation

- High Speed, Precision & Durability
- Range from 30 Tons to 360 Tons
- Max Speed From 300 spm (360 Tons) to 900 spm (30 Tons)
- State of the art controller to suit Lamination Pressing Requirements
- Complete Press Line Available

- Quality Progressive Tools for all types of electrical stampings
